

MNZ Supersport 300 Suspension List:

(note: these upgrades are optional, standard (OEM) front and rear suspension is permitted)

FRONT FORK: Inner and outer fork legs must remain as per original equipment manufacture (OEM). Top caps and internals may be modified but cartridges must be of the "open" type, pressurised cartridges (gas or spring) are not allowed.

REAR SHOCK: May be replaced with aftermarket alternatives but linkages ("dogbones") must be OEM.

The following suppliers are supporting this class with discounted rates, please recognise their support, help them to help you! Your current MNZ race license may be requested to be eligible for the discount.
