

## Motorcycling New Zealand - Reminder MNZ Competition Licences

As per previous communication we have been licencing for the 2014-15 season since the 9<sup>th</sup> June 2014.

We would like to take this opportunity to remind you that all competitors at MNZ events must have their current licence and logbook at events or purchase a one event licence. The third option is for riders who do not have a MNZ licence with them to partake in the un-licenced class, provided that the Club have applied to hold the un-licenced class on your permit application, and it has been approved, remember un-licenced and licenced riders cannot be mixed together.

Using one of the three above-mentioned methods is a must, this is non-negotiable if you choose not to do either of these three options the insurance that accompanies the permit will not be valid. Riders cannot tell you that they have applied for their licence and not had it returned, nor can they show you a receipt of payment or their user name and password to enable them to ride without their licence.

Contrary to belief we do not refund the cost of the One Event Licence fee if a rider has not received their licence in time. Competitors have had since the 9<sup>th</sup> June to renew or apply for their licence, to help you understand ~ MNZ Licences that are applied for on-line before 9pm are posted (fast-posted) the next working day. All paper applications received at the office either by post, fax or email are currently being processed and fast posted within three days of receipt (the form does ask the applicant to allow 14 days for processing).

Should you have any queries regarding this process please do not hesitate to contact the MNZ Office.

### ***Help Guide Competitors***

We ask you as Clubs and Officials, to help to guide the riders in what is required.

Championship licences are only required for New Zealand, North Island & South Island Championships as well as Street Road Races. If a rider is riding in a support class at a New Zealand, North & South Island Championship they only require a Club Licence, this is not applicable to a Street Road Race – all classes at Street Road Races require a Championship Licence.

Encourage frequent One Event Licence holders to obtain a Club Licence, it is \$100 for a Club Licence. However, if they are a first time or welcome back (haven't had a MNZ Licence for 3 or more years) the licence is only \$80 but furthermore they can obtain a \$30 discount by submitting two one event licences, making a Club licence only \$50 for the entire season!!

Have you got enough of the "Getting Started in Motorcycle Sport" booklets in stock to hand out to those new riders? If not contact the office and we will send you more.
